## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/28/2008 has been entered.

### ***Response to Arguments***

Applicant's arguments, filed 2/28/2008, with respect to the claims have been fully considered and are persuasive. The rejection of claims 1-30 has been withdrawn.

### ***Allowable Subject Matter***

Claims 1-30 are allowed.

The following is an examiner's statement of reasons for allowance: While the closest prior art, Van Oorschot et al., taught the majority of the claim limitations, Van Oorschot failed to specifically disclose that unencrypted section, which is processed to deduce information characterizing the unencrypted section, the deduced information being logically linked in an invertible manner to the key used to encrypt the encrypted section to produce a basic value, the basic value then being encrypted using an asymmetrical encryption method, wherein the unencrypted section includes audio data, video data, a combination of audio data and video data, or binary data forming an executable program. In Van Oorschot, the unencrypted section is a public key, and there is no teaching or suggestion in the prior art to include with the public key or replace the public key with the audio/video/program data as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
